To be continued

Many people ask me when the single volumes will come out and how much is harmonised, I'll tell you what I know.

1. At best before Spring Festival, or we have to wait after it.
2. Almost no harmonisation! Holy sheet, I felt incredible when I saw the scripts!

P.S. The cover design is great!
Now rest assured.

About the chapter title
The Chinese title 潮来 literally means 'tide comes', following the Chinese word for menarche, 初潮 which literally means 'first tide'. So I named this chapter 'Month Begins', which the word menarche literally means in Latin.

Next Chapter: National Day's Eve
Read from Left to right.
